

Summary of Cover - Gas Central Heating Breakdown

This cover meets the need of homeowners who require insurance and expert assistance in the event of a gas central heating breakdown at their domestic property.

What is covered?

If you suffer a breakdown of your domestic gas central heating system, you are covered for call-out, parts, materials, labour and VAT providing your boiler is not beyond economic repair. Your policy covers the repair of your gas fired central heating system (excluding warm air and LPG heating systems). The maximum permissible output of your domestic gas fired boiler under this cover is 60kW.

What is not covered?

You will not be covered for problems caused by failure of the external public services to the property. The policy does not provide cover for the replacement of the boiler or any appliances.

Are there any cover limits?

There are no cover limits for this policy, either for the cost of claims or the number of claims you can make. This policy does not cover the cost of replacement or repair where the boiler is beyond economical repair. On the rare occasion that a boiler is found to be beyond economical repair (where the cost of repairs exceeds the current value of the boiler) a £200 cash contribution will be given towards the cost of a new gas boiler.

Who is eligible to apply?

All homeowners are eligible to apply, unless the property is a mobile home, bedsit, in multiple occupancy or is used for commercial purposes, in which case the property can't be covered. Council or Housing Association tenants will not need this service.

Can you cover any type of boiler?

Provided your gas boiler meets the eligibility criteria, you can be covered. Boilers are considered eligible when their parts are available at most stockists and can be sourced within a reasonable timescale.

How do I know what type of boiler I have?

If you have a hot water tank in your home, it is likely that you have a conventional boiler. If you don't, it is probably a combination boiler.

When will I be covered?

Your policy starts the day your application is processed. To prevent claims on pre-existing problems and to keep premiums low, there is an initial period of 28 days where you will not be covered, giving you 11 months' cover in your first year.

Can I have a service on my boiler?

If you would like an annual service on your boiler, simply call Homeserve on 0800 783 0951 and an operator will arrange this for you at a competitive price.
